Some other items include:

- 1) Inspection – We strongly recommend that you have your truck DOT inspected by a good authorized shop PRIOR to bringing your truck to FCC. This will help catch all or most problems that may exist, and have them repaired before you arrive in Fremont.
- 2) Truck Weight -Your truck will be weighed at the expense of FCC, and inspected the first morning that you arrive for orientation. Fuel Tanks must be full of fuel and, if going into the flatbed division, all flatbed gear needs to be placed on the tractor. You must be in the truck at the time of the weighing.
- 3) Decals - Make sure your current decals are off the truck before the truck arrives in Fremont. This will allow us to get your truck inspected and prepped much faster.
- 4) FCC Decals- Must be placed on cab door or sleeper. They cannot be on the fuel tanks or steps.
- 5) Qualcomm - FCC uses Qualcomm for its mobile communications provider. (2 piece System) If you have had Qualcomm in your truck before, call FCC about leaving the cable in if it's currently wired for 2 pc system. We will try to use your existing mount / holes. If we cannot, you will be notified prior to drilling holes or using other means to mount the dome.

This checklist is provided to you so you know what you will encounter once you arrive with your truck at FCC. If you cannot meet all of these criteria, it will cause a delay in the leasing process and can possibly result in us not being able to lease your truck at all.

We take a lot of pride, just as you do, in the overall appearance and reliability of our fleet. Our customers notice these things and, more importantly, the Department of Transportation knows FCC to be a quality carrier with properly maintained equipment.

If you have any questions on any of these items, please contact Recruiting at 1-866-946-4322
